

# SAMMY'S DAY AT SCHOOL

BY- SIMON CHERIAN AND AI

Once in a big forest, there lived a snake named Sammy. Sammy loved going to school and learning about all the new things in the world.

But all the other animals in the school were afraid of him.

They found him slimy and scary.  
He would creep up on them without making a sound, which startled them.

So, they all stayed far away from Sammy, and he felt very lonely without any friends.

One sunny day, as Sammy sat alone and watched the other animals play, something terrible happened.

A small bunny named Benny fell into a pond and started sinking! All the animals panicked and called for help.

"Help!! Help!! Benny the bunny is drowning!!" they cried.

Hearing their cries, Sammy rushed to the pond, he wrapped his long body around a huge stone and used his strong, long tail to pull Benny out of the pond.

All the other animals were amazed and ashamed of how they had treated Sammy before.

They realized that Sammy wasn't scary at all; he was kind and brave.

They gathered around Sammy and thanked him for being so helpful and saving Benny.

From that day on, Sammy was no longer lonely.

The other animals included him in all their games and activities.

They realized that it's not how someone looks on the outside that matters but the kindness and bravery they have inside.

Sammy, the once-scary snake, had become their close friend, and they all lived happily in the big forest, playing and laughing every day.
